# Second Chance Act Community-Based Reentry Program

- Note that the program requires that participants are expected to be screened, assessed, and identified for program participation pre-release.
- During the post-release phase of the reentry program, participants will receive case management services and be connected to evidence-based programming designed to assist in the transition from prison or jail to the community so that it is safe and successful. Where feasible, applicants should build prerelease access into the proposed programming plan, including case management services and evidence-based interventions.
