

# Survey

*The purpose of this survey is to gather your input to guide the development of services to support individuals like you. Being involved in the criminal legal system and managing life is difficult for many people. Everyone is different but we know some people struggle with not having transportation, a job, a consistent place to live, money for food, or support for their families. Other people need help to address addiction or mental health issues or want to talk to someone about how to leave a relationship that is causing problems in their life. Our goal is to understand what challenges you are facing and to help where we can. Please answer the following questions if you are comfortable.*

*The questions will take approximately 10-15 minutes to complete. The responses are completely anonymous. We appreciate your participation.*
